Publishing Practical Peer-Reviewed Research for Physicians:

Clinical Focus in every issue • Original research, academic reviews, and Practice Pearls™ written by experts • Indexing in all major bibliographic databases and reference sources • Dedicated and responsive in-house editorial team and rapid turnaround • Rapid publication as standard, with Fast-Track options available

Medline Indexed

- Indexed in Medline since 1947
- Indexed in CrossRef and most major indexing services
- Peer reviewed
- Original research, academic reviews, and Practice Pearls™
- 300,000+ print and online subscribers
- Started in 1916 by Charles Mayo, MD
- Rapid publication
- Audience: internal medicine and subspecialties
- Published bimonthly

EDITOR-IN-CHIEF

HOWARD A. MILLER, MD
Vice Dean for Clinical Affairs
Drexel University College of Medicine
Philadelphia, PA

Recognized and Respected

- Indexed in Medline since 1971
- Indexed in CrossRef and most major indexing services
- Peer reviewed
- Original research, academic reviews, and Practice Pearls™
- 145,000 print and online subscribers
- Started in 1966
- Rapid publication
- Audience: hospital medicine
- Published 4 times annually

EDITOR-IN-CHIEF

GENO J. MERLI, MD
Chief Medical Officer
Thomas Jefferson University Hospitals
Philadelphia, PA

- Indexed in Medline since 2009
- Indexed in CrossRef and most major indexing services
- Peer reviewed
- Original research, academic reviews, and Practice Pearls™
- 157,000 print and online subscribers
- Started in 1972 by Harry Brown, McGraw-Hill
- Rapid publication
- Audience: primary care, sports medicine, and those allied with the field
- Published 4 times annually

EDITOR-IN-CHIEF

NICHOLAS A. DINUBILE, MD
Clinical Assistant Professor
Hospital of the University of Pennsylvania
Philadelphia, PA

Postgraduate Medicine

Clinical Focus: Risk Reduction and Treatment of Metabolic and Vascular Disorders

Submission Deadline: October 31, 2011
Fast-Track Deadline: December 19, 2011

- Factor Xa inhibitors and developments in new anticoagulants
- Peripheral artery disease and coronary atherosclerosis progression
- Long-term blood pressure control and developments in managing resistant hypertension
- Pharmacological agents for decreasing LDL-C levels: statins and new agents
- Diabetes management in patients with concomitant disorders
- Controversies in glycemic control targets and protocols
- Impaired fasting glucose in patients with hypertension: predictors of new-onset diabetes
- Erectile dysfunction and cardiovascular disease in men with type 2 diabetes
- Biomarkers and candidate genes for obesity, hypertension, and type 2 diabetes
- Lipid control in patients with diabetes
- Metabolic syndrome and carotid atherosclerosis
- Diagnostic and treatment considerations in different ethnic groups

The Physician and Sportsmedicine Clinical Focus: Orthopedics and Sports Injuries

- Footwear and injury prevention
- Treatment options for plantar fasciitis
- Topical versus oral NSAIDs for musculoskeletal pain and/or orthopedic injuries
- Seasonal injuries (football, hockey, basketball, baseball, and soccer)
- Exercises to manage neck pain
- Shoulder and upper extremity injuries
- Emergency preparedness before sporting events
- Knee pain in runners
- Operative techniques in ACL reconstruction, rotator cuff repair, and total knee/hip arthroplasty
- Nonoperative and operative treatment options for ACL tears
- Overuse injuries in multi-sport athletes
- Uncommon sports injuries and treatment options

Submission Deadline: November 7, 2011
Fast-Track Deadline: January 2, 2012

Hospital Practice Clinical Focus: Infectious Disease and In-Hospital Pain Management

- Nosocomial infections
- *Staphylococcus aureus*
- MRSA and MSSA
- *Clostridium difficile*
- *Streptococcus pneumoniae*
- Community- and hospital-acquired pneumonia
- Ventilator-associated pneumonia
- Neonatal and pediatric hospital-acquired infections
- Catheter-related infections
- Surgical-site infections
- Sepsis, septic shock, and cryptic shock
- Nosocomial diarrhea
- Influenza vaccination: adult and pediatric
- New opioid therapies
- New nasal and oral NSAIDs

Postgraduate Medicine

Clinical Focus: Protocols and Treatment Options for Cardiovascular Disease

Submission Deadline: January 7, 2012
Fast-Track Deadline: February 20, 2012

- Antithrombotic therapy: current trials and reviews
- Device therapy: safest drug-eluting stents, cardioverter-defibrillators, etc.
- Developments in arrhythmia treatment options
- Stroke risk factors and lifestyle modifications
- Utilization of RAAS inhibition
- Management of acute coronary syndrome
- Left ventricular remodeling
- Atherosclerosis and vascular disease
- Treatments for ischemia
- Factor Xa inhibitors and developments in new anticoagulants
- DVT prevention strategies and ultra-low-molecular-weight heparin
- Cost-effectiveness treatment comparisons

Hospital Practice

Clinical Focus: Diabetes in the Hospital
Setting: Complications and Transitions of Care

Submission Deadline: January 30, 2012
Fast-Track Deadline: March 12, 2012

- Inpatient glycemic control
- Inpatient hypo- and hyperglycemia
- Safe in-hospital insulin use, insulin protocols
- Wound care
- Diabetic retinopathy
- Diabetic foot ulcers
- Use of hyperbaric chambers
- Incretin therapies
- New pharmacotherapies
- Sulfonylureas, DPP-4 inhibitors, thiazolidinediones, and combination therapy
- Protocols for factor Xa inhibitors: administration and switching between agents
- Diabetes in the critically ill patient
- Managing inpatients with concomitant disorders
- Glycemic control in the emergency room
- Patients with diabetes undergoing surgery
- Transition of care for patients with diabetes
- Inpatients with type 1 diabetes
- Diabetic complications in the hospital

Postgraduate Medicine

Clinical Focus: Urological Disorders: Causes, Effects, and Management

- Combination therapy for erectile dysfunction
- Prostate-specific antigen screening: improving selection criteria
- Active surveillance for low-risk prostate cancer
- Stress urinary incontinence and new targets for the management of overactive bladder
- Prostate cancer: brachytherapy and comparisons between open and laparoscopic surgery
- Low testosterone and hormone replacement therapy dosing accuracy
- Urological oncology: bladder cancer, kidney cancer, penile cancer, etc.
- Estrogen and androgen signaling in BPH
- BPH and lower urinary tract symptoms
- Relationship between erectile dysfunction and cardiovascular disease
- Hypogonadism and metabolic syndrome
- Risk factors for end-stage renal disease

Submission Deadline: March 7, 2012

Fast-Track Deadline: April 18, 2012

The Physician and Sportsmedicine

Clinical Focus: Respiratory Disorders, Allergies, and Infectious Diseases

- Asthma and allergies in athletes
- Treatment options for asthma and COPD (bronchodilators, anticholinergics, and corticosteroids)
- Vocal cord dysfunction
- Exercise-induced asthma
- Exercise-induced bronchoconstriction
- Obesity and COPD
- Respiratory infections in winter sports athletes
- Pulmonary rehabilitation and physical activity
- Fitness and long-term oxygen therapy/lung transplantation
- Infectious diseases in athletes
- Locker room infections
- Athlete's foot

Postgraduate Medicine

Clinical Focus: ADHD, Depression, Pain, and Neurological Disorders

- ADHD treatment and management: adults, adolescents, and children
- Sex differences in response to methylphenidate
- ADHD comorbid with social anxiety disorder
- Considerations in changing medication dosages
- New ADHD screeners and comparisons between screeners
- Emotional dysregulation in ADHD
- Improving diagnostic criteria and symptom awareness
- Long-term effects of stimulants in ADHD
- Combination pharmacotherapy and cognitive-behavioral therapy
- Early predictors of medication response
- Pharmacotherapies for ADHD comorbid with substance abuse disorders
- Avoiding diversion and misuse of ADHD medication

Submission Deadline: July 5, 2012
Fast-Track Deadline: August 15, 2012

The Physician and Sportsmedicine

Clinical Focus: Rheumatology

- Exercises for patients with osteoarthritis, rheumatoid arthritis, osteoporosis, etc.
- Pain management for osteoarthritis and rheumatic disorders (NSAIDs, viscosupplements, hyaluronic acid, etc.)
- Effectiveness of different exercise programs for patients with osteoarthritis
- Improving physical function in early knee osteoarthritis
- Bone density after menopause
- Vitamins C and D in patients with low bone mineral density
- Physical activity and fractures in postmenopausal women
- Risk of arthritis after arthroplasty
- Physical activity in obese patients with osteoarthritis
- Protein and nutritional supplements for joint health
- Preventing fragility fractures in osteoporosis

⦿ FAST-TRACK SUBMISSION DEADLINE

Postgraduate Medicine

Clinical Focus: Cardiovascular Emergencies and Transitions of Care

- Antiplatelet agents in acute ST-segment elevation myocardial infarction
- Reducing cardiovascular events and end-organ damage
- Prevention of recurrent stroke
- Management of atrial fibrillation
- Safety and efficacy of antithrombotic therapy after PCI
- Carotid intima-media thickness and angiotensin II-receptor blockade
- Chronic inflammatory disease and cardiovascular risk
- Management of patients with cardiovascular disease and chronic kidney disease
- Pain management treatments and risk of cardiovascular side effects
- Selection of ACE inhibitors, ARBs, and switching between statins
- Clinical trial results and impact on clinical practice
- Health economics of managing cardiovascular disease

Submission Deadline: August 23, 2012
Fast-Track Deadline: October 4, 2012

The Physician and Sportsmedicine

Clinical Focus: Pain Management

- Weightbearing exercises in patients with diabetes and neuropathic feet
- Effects of analgesics in patients with knee pain
- Treatment options for rheumatic diseases and back pain
- Brace versus casting in pediatric ankle fractures
- Treatment options for tendon inflammation and instability
- Pain management for osteoarthritis, rheumatoid arthritis, and ankylosing spondylitis
- Effectiveness of different exercise programs for patients with osteoarthritis
- Pain management and return to physical activity after orthopedic surgery
- Cold and compression therapies in musculoskeletal injuries/soreness
- Balance training in athletes with ankle instability
- Shoulder and upper extremity injuries
- Exercises to improve joint function
